

A better working world starts with you

Vacancy Risk Assurance Staff

EY is a global leader in Assurance, Tax, Transactions and Advisory services. Our family of over 250,000 professionals worldwide are united by our shared values, which inspire us and guide us to do the right thing. EY Curaçao is part of an integrated regional firm, EY Caribbean (EYC), which consists of offices in Curaçao, Aruba, Jamaica, Barbados, Trinidad, St. Lucia and Guyana.

Recruiting, developing and retaining top talent is at the heart of our organization. We create a workplace that encourages collaboration and flexibility so the great people who form our teams can truly excel. From the moment you join us, we will give you real challenges and offer you great opportunities to develop your professional skills and shape your career. Our reputation is based on creating outstanding professionals. And as you play your part, we play ours.

At EY it's all about being the best and building a better working world. On this mission we are looking for more exceptional people to join our high performing teams in the Dutch Caribbean.

Advisory and Risk Assurance

Risk Assurance (RA) is a specialized group within EY Advisory Services that works where Business and ICT intersect. It has an important voice in the EY organization. Risk Assurance is one of the major players in the market when it comes to IT auditing and consultancy that is focused on the reliability, security and effectiveness of information systems and processes. This occurs within the framework of annual financial audits, as well as beyond it.

The field of IT auditing is evolving because of the continuous development of information technology. To address this, Risk Assurance has specialized teams for several issues including information security management, Cyber Security, Third Party Reporting, ERP, data analysis, data warehousing and quality assurance.

Staff Risk Assurance

To strengthen our team in Curaçao we are currently looking for young, innovative and result-oriented professionals who share our unwavering commitment to quality with a Master's or Bachelor's degree in Computer Science, Information Systems, Engineering, Accounting, or a related discipline.

The qualities we are looking for in all our colleagues?

- ▶ Technical IT knowledge is very important, but character is even more important
- ▶ A proactive and self-motivating attitude with lots of energy and enthusiasm
- ▶ A great appetite for learning, understanding and growing as a professional and as a person
- ▶ Team player with an eye for detail and a high standard of integrity
- ▶ Strong communication and analytical skills

Are you up for the challenge?

Please send an e-mail with your application letter and CV to our HR department at recruitment@an.ey.com. For questions you can also contact us at +5999 430 5000.
