RAC is seeking a Data Analyst to help transform data into strategic insights that drive regulatory decision-making. If you have a passion for data integrity, analytics, and visualization, this is your opportunity to make a meaningful impact within a regulatory environment.

KEY RESPONSIBILITIES

- Collect, analyze, and interpret data to support data-driven decision-making.
- Ensure integrity and accuracy of all collected data, maintaining high ethical standards.
- Provide transparent data analyses that inform regulatory decisions and operational improvements.
- Develop reports, dashboards, and data visualizations to communicate insights effectively.
- Identify opportunities for process improvements based on data findings.
- Conduct in-depth data analyses using advanced statistical methods and tools.
- Manage and update databases to ensure security, accessibility, and functionality.
- Ensure compliance with data governance and regulatory compliance regulations.

WHAT WE ARE LOOKING FOR

- HBO Bachelor's degree in Data Science, Statistics, Economics, Business Analytics, or a related field.
- At least 3 years of experience in data management, data analysis, and reporting.
- Strong knowledge of Excel, SQL, Python, or R and data visualization tools such as Power BI or Tableau.
- Understanding of regulatory compliance and governance in data management.
- Strong analytical thinking, accuracy, and communication skills.
