about your future
career today

Baker Tilly in Curaçao is an independent member of Baker Tilly International and is part of a worldwide network of financial specialists in the field of accountancy, tax and management advisory.

Baker Tilly is recruiting an

IT Auditor

As IT Auditor you are deployed to a wide range of clients to carry out IT audits. You are mainly involved in supporting our accountants in the annual audit. In addition, you conduct various research in the field of functionality and quality aspects of automation in the workplace.

Based on these outcomes, you make reports and give recommendations on (financial) risks and the control and security of ICT.

In your role you are primarily responsible for the acquisition and execution of IT audit and advisory assignments. With regard to acquisition you are sharp and creative.

In the execution of assignments, you manage a team of professionals but based on your experience you also fulfill an important advice function towards our clients.

In your work you maintain contact with various parties, such as the management of companies and internally with colleagues.

You show the added value of the IT audit team to clients and our (inter) national network.

Profile

- A Master's degree in one of the following directions: (Technical) Business Administration, Accountancy, Economics, Business Economics or Computer Science
- You have completed the EDP/ IT auditor training, or you are studying for this;
- You have at least 6 years of work experience in IT auditing, preferably in business services or internal audit;
- A specialization in areas such as SAP, Oracle, IDEA, information security or financial auditing is an advantage;
- Communicative skills, customer and result oriented;
- You are willing to travel;
- You are an intelligent and pragmatic team-player.

Baker Tilly offers an attractive benefits package, a pleasant working environment and extensive development opportunities.

Reactions will be treated confidentially. An assessment can be part of the selection procedure.
