

**KOORYMAN**  
THERE IS **ALWAYS** SOMETHING TO DO  
80 YEARS

Do you enjoy working with article data on a daily basis and translating the wishes of our customers into good article specifications that tell the story of our articles? Are you good at translating functional requirements into technical specifications? In that case, you are the one we are looking for!

For our supply chain department in Curaçao we are looking for a

## DATA COORDINATOR

### KEY RESPONSIBILITY:

As a Data Coordinator you ensure that the quality of article data is monitored and, along with our colleagues and suppliers, that the quality of our article data is also continuously improving.

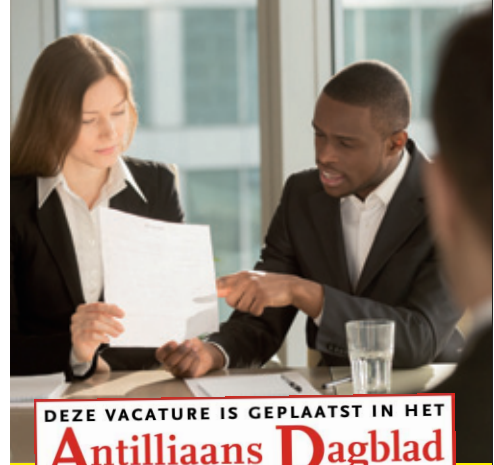

You regularly report the progress and data quality to the most important internal stakeholders. You check and monitor standardization of input and you are engaged in setting up and implementing best practices, guidelines, processes, and procedures for Data Management within our Kooyman organization.

### DUTIES AND RESPONSIBILITIES:

- Fulfill a leading, monitoring, and executive role for Kooyman's data management
- Responsible for enrichment of data together with the Category Managers
- You work on the content and quality of the article catalog
- Ensure together with the category managers and the suppliers, that the article information that is recorded in the system meets the demands and the wishes of the customer.
- Give support to the users of the article data system.
- Responsible for the implementation and optimization of the article creation and enrichment process within Kooyman.
- Act as the first point of contact for the users of the article creation and enrichment process.

### JOB REQUIREMENTS:

- Bachelor work and thinking level
- Experience with article data (processes) within a retail organization
- Experience in omni channel organizations, preferably in the DIY industry
- Knowledge of and experience with ERP systems, Microsoft Office and GS1
- Experience with omni channel platform related applications such as PIM and DAM
- Excellent analytical skills and communication skills
- A team player with helicopter view
- Initiator, independent and a self-starter who can work accurately and well under pressure
- Excellent oral and written communication skills in Dutch, as well as in English and Spanish.

DEZE VACATURE IS GEPLAATST IN HET  
**Antilliaans Dagblad**

Kooyman is a dynamic, fast growing and successful retail organization in the Caribbean with branches in Aruba, Bonaire, Curaçao and Sint Maarten. In the year 2020 we will expand by opening a new store in Barbados. With the addition of this new location, Kooyman has 7 store locations spread throughout the Caribbean.

The organization's main business is retail trade in building materials, hardware and decorative products for contractors as well as handymen; Kooyman also delivers special orders to the professional market.

The company was founded in 1939 and employs more than 600 employees. The main office is located in Curaçao, where activities in the areas of Category Management, Marketing, HRM, ICT, Logistics and Finance are carried out. Kooyman is a growing and ambitious organization with plenty of opportunities for development.
